Introduction

I am a motivated and detail-oriented Junior Frontend Developer with a solid foundation in web and mobile development. I am actively seeking a role where I can contribute my expertise in React, TypeScript, and RESTful API integration, while continuing to grow in a dynamic environment. With additional experience in Flutter, I can deliver versatile solutions for both web and cross-platform mobile applications. Dedicated to learning and highly adaptable, I thrive in both independent and collaborative settings and am ready to bring value to impactful projects.

Experience

03/2022 - until now

Junior front-end developer

Remote

• Contributing to a charity project (since October 2023) that supports individuals who have relocated internationally. Key achievements include:

• Mastery of React Hooks and efficient state management

• Collaboration in UI/UX design through Figma

• Using Git for pull requests, code reviews, and team-based version control

• Actively participating in regular stand-ups and team meetings to align on project progress

• Gained hands-on experience in API integration and foundational SQL, broadening my full-stack knowledge.

02/2019 - until now

Transport Coordinator

Transport company

• Coordinated daily logistics with drivers and dispatchers, optimizing workflows.

• Managed documentation for international personnel, strengthening organizational skills.

09/2007 - 01/2019

Head of department, lawyer

Administrative Authority, Russia

• Led the Heating Department, provided legal support.
